

Hi, I'm Adi a muralist painter originally from France, I moved to Montreal to explore new artistic opportunities. My work focuses on illustration, blending abstract and figurative elements to create compelling compositions.

I work particularly on the composition of shapes and colors, seeking to establish visual harmonies that captivate the eye. My name is often creatively integrated into my work, using geometric shapes and bubbles to add a playful touch.

With a digital and futuristic style, I seek to express my passion for art while inviting the viewer to discover a unique universe.
